Re: City of Abilene's Application to DOT's FY04 Small Community Air Service Development Program

Dear Secretary Mineta:

I support the City of Abilene's request for a Small Community Air Service Development Program (SCASDP) grant to continue improving air service at Abilene Regional Airport for the benefit of west central Texans.

Abilene received \$85,010 from the 2002 program, the smallest grant awarded to any community. That \$85,010, combined with local funds, enabled the airport to create a formal Business Development Program which:

- ▶ Conducted an Air Service Study that defined our air service market and quantified market demand
- ▶ Secured a second air carrier to a second Texas hub - SkyWest Airlines operating as Continental Connection to Houston Intercontinental Airport
- ▶ Encouraged Abilene's two airlines - American and Continental - to provide low promotional fares

The results of these air service improvements were beneficial to Abilene area air travelers, and we indicated our support with a 46% increase in enplanements in the first six months of two-airline service.

Additionally, Abilene Regional Airport has been so successful that the Office of Aviation Analysis in the U.S. Department of Transportation uses us as a best practices model for other small U.S. airports.

To enable this, your approval of Abilene's FY04 grant proposal would fund a business plan that will further address service and fare deficiencies, including:

- ▶ Enhanced outreach to the citizens living in the rural areas of the airport's 32-county service area, including the formation of a Regional Air Service Advisory Council and proposed new regional shuttle service to the airport
- ▶ Formalizing a web-based Customer Knowledge Project to fully understand the air service needs and expectations of those citizens and their businesses
- ▶ Pursuit of more efficient service to our top western markets to better meet the demands of more than 50% of our passengers
